## You have been your child's teacher from the day he or she was born.

You know more about your child than anyone else, and you are in the best position to help your child get ready to read. Whether your child is four days old or four years old, it is not too early or too late to help him or her develop pre-reading skills. You can help your child learn language and other early literacy skills with simple and fun activities like those in this calendar.

Do you know two rhyming words? They sound a lot alike.
